

MEDICAL UNIVERSITY OF WARSAW  
RECTOR

Warsaw, 27 April 2015

R1/AAP-734/2015

**Declaration of support for the European Charter for Researchers and the Code  
of Conduct for the Recruitment of Researchers**

The Medical University of Warsaw (MUW) welcomes and fully supports the principles expressed in the Recommendation of the European Commission 2005/251/EC on "The European Charter for Researcher" and "The Code of Conduct for the Recruitment of Researchers" (hereinafter referred as The Recommendation).

The principles of the Recommendation are in line with MUW policy and have already been implemented. Understanding the challenges initiated by the Lisbon Convention and the Bologna Declaration on the main role of education and research in Europe, the MUW objective is the implementation of its main principles. The activities of the University are based on the University traditions and namely respects for human rights, pursuit of truth, respect for knowledge, skills and reliability. In scientific research the MUW observes the principles of good clinical and pharmaceutical practice.

We believe that dissemination and implementation of the Recommendations foster international collaboration and attractive European labour market for researchers.

Marek Krawczyk  
Rector
