Experience Bayreuth – Collaboration with Local Host

We invite researchers to carry out their own research projects in cooperation with a local host at the UBT. Prior to submission of the application, applicants are required to identify a host in Bayreuth with whom they aim to carry out their research project. The local host provides the Grantee with modern office and lab space and an up-to-date infrastructure. Applications are welcome from all disciplines, although exceptions apply.

Candidate Requirements

We award the Short Term Grant Programme to individuals from abroad with challenging and innovative research projects of top academic quality through a highly competitive, strictly merit-based selection process. The all-important selection criteria are the academic excellence of both the applicant and the cooperative project.
